

JÜSTRICH COSMETICS AG

OUR PASSION IS THE DEVELOPMENT AND MANUFACTURE OF COSMETICS FROM THE FINEST NATURAL RAW MATERIALS.

Our successful market presence that extends beyond the borders of Switzerland is founded on innovative ideas and the latest research findings.

COMPANY PROFILE

Jüstrich Cosmetics AG stands for **quality, innovation and flexibility** in cosmetics manufacturing.

Jüstrich Cosmetics is your competent partner in cosmetics development and manufacturing. From your initial idea to product delivery, we offer our services individually or as a full-service package. Tailored to your exact needs and preferences.

MISSION Jüstrich Cosmetics develops and produces outstanding speciality cosmetics and highly effective natural cosmetics.

Our success is founded on the subtle and carefully balanced use of the finest natural raw materials together with the latest cosmetic ingredients. Our partners throughout the world benefit from our decades of experience.

VISION As an innovative partner, we rapidly create high-quality personal

care products 'Made in Switzerland'. If required, we can undertake all stages of the process right through to the finished product.

Visit our website:

THE BEST SWITZERLAND HAS TO OFFER

Products **‘Made in Switzerland’** enjoy an excellent reputation both domestically and abroad. They stand for exclusivity, tradition and above all premium quality.

If you want **‘SWISSNESS’** as your selling point, we are your professional partner. All our products are developed, manufactured and filled in Switzerland. This means you benefit from Swiss-quality workmanship along the entire value chain, from initial idea through to the finished product.

SINCE 1 JANUARY 2017, the new ‘Swissness’ legislation has regulated when a product is allowed to carry the ‘Made in Switzerland’ designation and the Swiss cross.

For a Swiss indication of source, the new Ordinance on the Use of Swiss Indications of Source for Cosmetic Products stipulates that a minimum of 60 per cent of the manufacturing costs and at least 80 per cent of the research, development and production costs must be incurred in Switzerland.

SWISS MADE – the guarantee for your cosmetic product ‘Made by Jüstrich Cosmetics’.

An uncompromising commitment to meticulous production methods and the use of carefully selected active ingredients are key factors contributing to the company’s success.

EXQUISITE BEAUTY CARE

A passion for cosmetics, a strong corporate ethos and a **highly innovative team** are the essence of our company.

PRODUCT AREA

- Cosmetic products

PRODUCT GROUPS

- Body care
- Hair care
- Facial care

- Oily formulations (body oil, face oil, massage oil, etc.)
- Surfactant formulations (shampoo, shower gel, facial cleansing foam, etc.)
- Emulsions (W/O and O/W) (body lotion, face cream, hand cream, etc.)
- Gels (oil gel and water) (hair gel, body gel oil, herbal gel, etc.)

RESEARCH AND DEVELOPMENT

The key to bespoke products

lies in the research department of Jüstrich Cosmetics AG.

We offer you our professionalism, our years of experience and our holistic understanding of cosmetic products. Our employees are constantly in touch with the latest trends and are always happy to assist you in creating your range of cosmetics.

RESEARCH - BUILDING THE FOUNDATIONS OF TOMORROW

Innovative forms of application, new textures and trend-setting technologies – our cosmetics experts are working flat-out on product concepts in the utmost

secrecy. We are deeply involved in carefully chosen research projects. This is how we are investing in the future.

A PASSION FOR DEVELOPING Our cosmetics experts have many years of professional experience in the development of cosmetic products. We put our heart and soul into developing modern, high-quality, safe recipes for you – bespoke, and tailored exclusively to your requirements. Whether it is energy cosmetics, oxygenated cosmetics or cosmetics made from ‘super-foods’:

we keep up to date with the latest trends and are always on the ball for you with modern and appealing products. The buzzword is innovative speciality cosmetics: we combine your ideas with current trends in the cosmetics industry and the latest active ingredients.

VISION AND INNOVATION We track down the latest beauty trends for you. We attend trade fairs, lectures, training sessions and symposiums in search of the next beauty craze. And we also carry out active research online. What trends

are emerging around the globe? The next cosmetics boom is certainly on its way. Our close contact with industry experts means we are always up-to-date with the latest market trends. We work quickly and flexibly to turn innovations into product concepts, creating your next shining star in the universe of cosmetics.

HEMP LINE

The remarkable benefits of hemp.
Anti-inflammatory, anti-aging, antibacterial.

With our Hemp Line, we are catering to the most promising modern trend in the beauty private-label segment. It comprises a range of nine skin care, nine body care and two hair care products.

ACTIVE INGREDIENTS FROM THE HEMP PLANT The active ingredients contained in the hemp plant – Cannabidiol, Cannabigerol, Terpenes and hemp oil – are especially soothing for sensitive skin. They penetrate deep into the skin's layers, where they exert an antibacterial and anti-inflammatory effect.

Recent research shows that hemp boosts the skin's own repair mechanism and stimulates cell regeneration. Given that inflammation accelerates skin aging, hemp-based cosmetics have a powerful anti-aging effect.

CBD, CBG, TERPENES – OUR HEMP LINE FOR PRIVATE LABEL

- Hemp ingredients are trending
- Stimulates the skin's own cell regeneration
- Has antibacterial and anti-inflammatory properties

Permcos, your innovative partner for high-quality cosmetic raw materials!

Permcos
your innovative partner

If you require any further information, please feel free to contact us at permcos@permcos.com or visit our website www.permcos.com.

HEMP LINE

Our Hemp Line **intensively nurtures particularly sensitive skin.**

Natural ingredients are on-trend and have established themselves as an integral part of the cosmetics industry. More and more people are valuing sustainable and well-tolerated skin care products.

CBD, CBG, TERPENES & HEMP Jüstrich Cosmetics capitalises on this trend, offering high-quality cosmetic products based on the natural active ingredients of the hemp plant.

THE PERFECT FOUNDATIONS FOR YOUR SUCCESSFUL PRODUCT We will work closely with you to tailor the fragrance and packaging to your private label's target audience, so you can launch your own product line in no time.

YOUR BENEFITS FROM OUR READY-TO-SELL FORMULATIONS

Realized by
science

Your partner for unique,
high-quality actives
for the cosmetic and
nutraceutical industry –
with 30 years of experience.

PRIME LINE

Swiss quality at its finest. **Slow-aging, moisturising, ultra-soothing.**

Our Prime Line includes eight different face care and five body care products, all 100% vegan. It is perfect for those seeking effective skin care solutions that are also sustainable.

The astonishing beauty effects of these face care products come from the active ingredient **CUTIGUARD CLR™**. It is derived from a highly effective extract of red algae through the natural process of fermentation. CutiGuard strengthens skin cells, reduces cellular senescence, and protects aging skin from stress-related factors. The result is a youthful-looking complexion with a radiant glow.

THE KEY TO SUCCESS: Fusion of the latest research findings and biotechnologies with the power of nature.

FERMENTATION BOOSTS EFFECTIVENESS

Fermentation is the biochemical transformation of substances through bacteria and enzymes. This natural process is used in skin care to obtain extracts.

BARLEY TONIQ® — HEALTHY AND HAPPY SKIN The potent active ingredient BARLEY TONIQ® is included in all beauty products of our Prime Line. It promises to restore balance to irritated skin. BARLEY TONIQ® is derived from upcycled barley through enzymatic extraction.

The secret lies in its carbohydrates, proteins, polypeptides and amino acids, which stimulate skin healing and act as a moisture booster. Its ultra-soothing effects lead to a noticeable reduction in redness.

PRIME LINE FOR PRIVATE LABEL

- Fermented ingredients are trending
- Slow-aging (face care)
- Moisturising, ultra-soothing
- Sustainable active ingredients (upcycling)
- Effective (supported by studies)

Wir sind ein Familienunternehmen mit Sitz in der Nähe von Warschau, mit einer über 15-jährigen Tradition in der Produktion von Plastik- und Kunststoffen, darunter PCR und Sugar Cane Tuben.

Wir bieten Verpackungen höchster Qualität für Kosmetik-, Parapharma-, Lebensmittel- und Haushaltschemiebranche, und unsere Standard Lead Time beträgt nur 4 Wochen!

Zur Website

PRIME LINE

Our Prime Line is specifically designed to meet the skin's **moisture and soothing needs**, while the face care products also slow down **skin aging**.

With our Prime Line, we offer you a high-quality and innovative skin care solution. We are proud to preserve natural resources and rely on a tried-and-tested tradition backed by research findings.

THE PERFECT FOUNDATION FOR YOUR SUCCESSFUL PRODUCT Together, we customise the perfume and packaging of your private label according to your target audience. This way, you can launch your own product line in the market in no time.

DERMATOLOGICAL COMPATIBILITY

Throughout the product development stage, our experienced cosmetics experts place great importance on using particularly mild and compatible ingredients. In this way, we ensure that your formulations meet the requirements and needs of people with sensitive skin.

Jüstrich Cosmetics works with external specialists in the field of dermatology. Every formulation undergoes epicutaneous testing (patch testing in vivo). Under the supervision of a dermatologist, volunteers (people with healthy skin, allergy sufferers, atopic individuals and those with sensitive skin) test the product for any skin-irritant effects.

A successful patch test allows claims such as 'dermatologically approved' or 'dermatologically tested' to be made and also provides maximum product safety.

FULL-SERVICE

Our experienced specialists guide you along **the entire value chain.**

Whether you are looking for development, production or filling – we are the specialists for your personal care products. Our many years of experience in the cosmetics industry and our modern infrastructure allow us to cover all areas of skin care cosmetic products. We respond to your individual needs.

Decide for yourself which services you would like to receive from us and which processes you want to handle yourself. We are happy to undertake all stages of the process for you.

PRIVATE LABEL – YOUR PRODUCT’S RECIPE FOR SUCCESS To create a profitable product, you need a clearly defined concept that you are passionate about.

We supervise your private label from the initial consultation through to delivery of the finished product, with the utmost professionalism and reliability.

With innovative ideas, we help you create unique cosmetic products. And that at a competitive price-performance ratio.

ProTec
Ingredia

Many of the active ingredients we offer have won innovation awards for their technical or conceptual advancement, providing our customers with a significant advantage in setting trends. Our partners are at the forefront of developing sustainable raw materials, such as those derived from plant and marine biotechnology. Additionally, common cultivation and extraction methods are continuously optimized with a focus on maximum resource conservation.

We supply the active ingredients for your cosmetics.

Since 1993 we specialize in distributing cosmetic active ingredients from internationally renowned manufacturers.

We serve companies in the Personal Care Industry, catering to producers of high-quality prestige products as well as non-selective brand cosmetic manufacturers. We take pride in our powerful portfolio of active ingredients for skincare, haircare, sun care, and decorative cosmetics.

Face Care

Body Care

Hair Care

Scalp Care

FROM IDEA TO END PRODUCT

We guide you through the entire **process**, from the initial consultation to the delivery of the cosmetic products.

DO YOU HAVE A NEW BUSINESS IDEA? Do you want to expand your product range? We are your reliable and innovative partner.

Choose from existing, proven formulations and we will adapt them to

your requirements. Alternatively, our experienced cosmetics developers can create bespoke formulations tailored to your exact specifications. Contact us to arrange a consultation.
